

Full Prior Authorization Management

We offer the option of either:

Carve out

Carve out of high cost Rx and specialty prior authorizations

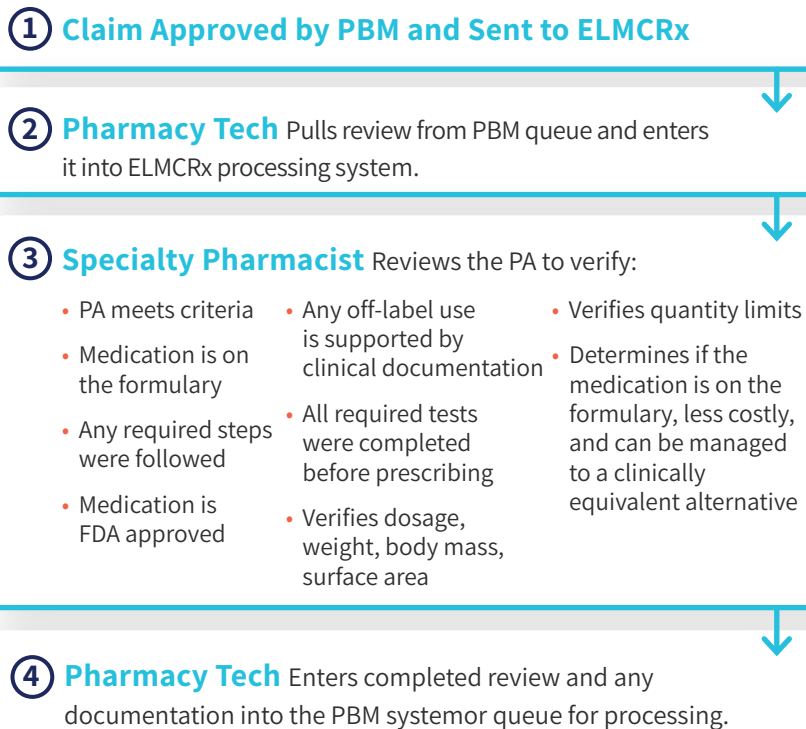

Secondary Reviews

Real-time secondary review of approved PAs prior to fill (after PBM approves)

Both options include:

- Emphasis on compliance with clinical guidelines, dosage accuracy, formulary position, and FDA approval.
- Complete management of the process using incumbent PBM formulary and criteria (or custom criteria and drug list at client's request).

Process Flow

All Clinical Pharmacists

Have **15+ years of extensive PBM experience** and sub-specialty certifications

All Pharmacy Technicians

Have **10+ years of experience**

25,000+ Reviews

Completed Since 2019

95% of Reviews

Completed in 48 Hours

24 Hours

To complete **Urgent** reviews

48 Hours

ELMCRx focuses on providing a thorough audit for all PAs rather than simply approving the PBM's work.

- Disciplined review and audit occurs within each client's specific turn around time
- 98% of all reviews are completed within 48 hours, 24 hours for urgent reviews
